periment, and discover all
the different insects and
bugs and their fascinating
habitats. Throughout the
month we will bring in the
theme of camping through
variety of foods and outdoor
experiences.

VAST WATER WORLD

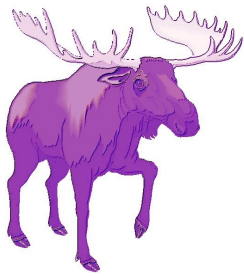

A preschool water theme is
fun and educational. There
are many ways to teach
children about water and its
importance. The aim of this
theme is to show the
children how many ways they
need and use water in their
life, for fun and for function.
We will learn about rain,
clouds, dams, streams, rivers
and more. Of course the
water unit will have plenty of
outdoor time exploring and
playing in
different outdoor settings.

OVERVIEW

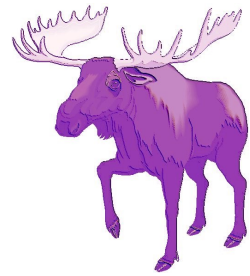

In the summer months your child can continue their enriching experiences with us at Purple Moose Enrichment Preschool. Campers ages 3-6 are welcome to join us during the month of June, July and August. Our 2 year old campers are welcome in the month of August. The camp program offers many hands-on learning adventures through thematic units. Our themes include a well-rounded curriculum that allows the young child opportunities to expand knowledge of their natural world, reasoning, problem solving skills, enriching language and vocabulary. Creativity is inspired through open-ended art and music experiences. Of course this wouldn't be summer camp if we didn't spend plenty of time outdoors...playing.

**We are going to be providing snack for all the campers—
so moms and dads get extra rest too.**
